UV Protection and HEV Blue Light Filtering in a Finished Single Vision Lens

Kodak Total Blue Lens is a hybrid of lens material and AR lens coating that filters Harmful Blue Light and provides 100% UV Protection.

The exposure to potentially Harmful Blue Light is increasing every day in every age group. With the addition of finished single vision lenses, **Kodak** Total Blue Lens offers HEV Blue Light filtration for every patient, at every age.

- Filters up to 80% of High Energy Visible (HEV) Blue Light*
- Blocks 100% of Direct UV Rays
- Eases eyestrain and eye fatigue
- Reduces glare and reflections caused by digital devices, LED lighting and headlights, and energy-efficient compact fluorescent lights (CFLs)
- Resists scratches and easy-to-clean

*HEV Blue Light designation as 380-440nm

KODAK Total Blue Lens Availability
