Kodak

Unique HD Progressive Lens

New Levels of Customization

Kodak Unique HD Lens is the next level of customization for the **Kodak** Unique Lens design. The 'HD' stands for 'High-Definition' and fulfills this description by including additional measurements to more highly customize the lens to the individual patient's needs.

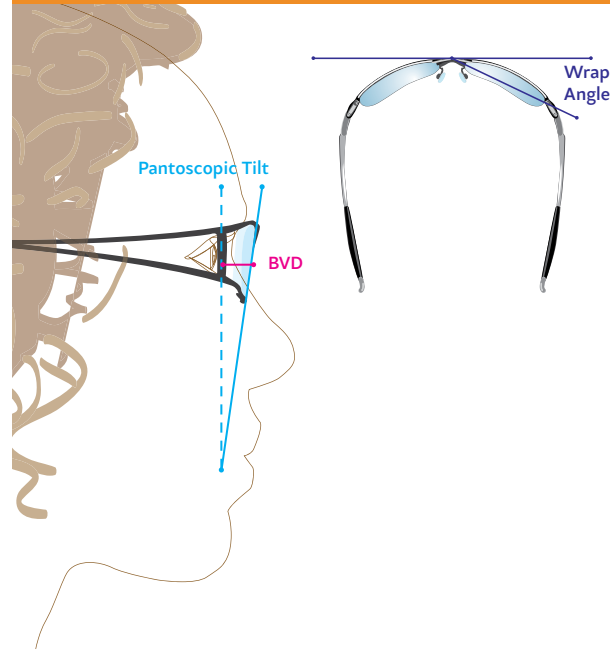

See Life in High Definition

Kodak Unique HD Lens includes the features of **Kodak** Unique Lens:

- ▶ Full backside progressive design
- ▶ Vision First Design™ Technology
- ▶ i-Sync™ Technology
- ▶ Six corridor lengths
- ▶ Variable decentration
- ▶ Wide distance vision
- ▶ Prescribed prism

+ more...

Creating a Unique Wearing Experience

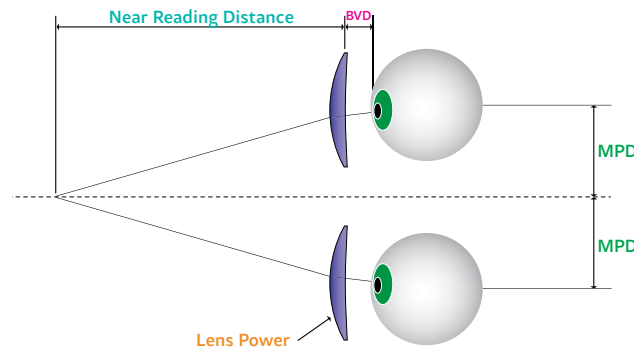

Kodak Unique HD Lens customization includes the following additional features:

Prescription Compensation

The patient's **Back Vertex Distance (BVD)**, **Pantoscopic Tilt** and **Wrap Angle** are included to provide a customized lens optimized for the individual patient's prescription and frame selection.

Variable Inset

Relying on the **Near Reading Distance**, **Lens Power**, **Back Vertex Distance (BVD)** and **Monocular PD (MPD)**, **Kodak** Unique HD Lens delivers a near viewing experience tailored to the individual patient's needs.

The ECP's Dispensing Experience

- ▶ Outstanding Patient Adaptation
- ▶ A Trusted Brand Name
- ▶ Easy to Dispense
- ▶ Advanced Technologies at a Sensible Price
- ▶ A Variety of Material Options
